Acebutolol/hydrochlorothiazide combination, in hypertension	323
Acemetacin, in rheumatic diseases	701
Albendazole, in intestinal helminthiasis in children	516
Alizapride, in cis-platinum-induced emesis, compared with domperidone	400
Amiloride, in elderly hypertensives, alone and combined with hydrochlorothiazide, compared with atenolol	691
–, combined with frusemide, in heart failure	132
–, effect on urinary electrolyte excretion, alone and combined with frusemide	124
–, pharmacokinetics when given alone or in combined tablet with frusemide	141
Aminophylline, in reversible airways obstruction, compared with salbutamol and terbutaline	1
Amitriptyline, electrophysiological and haemodynamic changes in depressed patients, compared with trazodone	339
–, in rheumatoid arthritis	426
Amoxycillin, in lower respiratory tract infection, compared with pivampicillin	536
Amoxycillin/clavulanate combination, in urinary tract infection, compared with pivmecillinam/pivampicillin combination	310
Antisera ('Serocytol'), use in gastritis	642
Aspirin/metoclopramide combination, pharmacokinetics	153
Atenolol, in elderly hypertensives, compared with amiloride and hydrochlorothiazide alone and combined	691
–, in hypertension, compared with metoprolol	431
Atenolol/chlorthalidone combination, in hypertension	378
Azapropazone, in osteoarthritis, long-term treatment	86
Aztreonam, in uncomplicated gonorrhoea	591
–, in urinary and respiratory tract infections	316
Beclomethasone dipropionate, in seasonal allergic rhinitis, compared with flunisolide	290
–, –, compared with terfenadine	560
Betamethasone valerate, in eczematous dermatitis, compared with diflorasone diacetate	259
Bezafibrate, in primary hyperlipoproteinaemia, compared with fenofibrate	650
Bran biscuits, use in diet to treat constipation in the elderly	716
Bromazepam, in anxiety, compared with lorazepam	505
Brompheniramine maleate, in chronic urticaria, compared with clemastine fumarate	394
Cefotaxime, *in vitro* comparison with other antibiotics	71
Ceftazidime, *in vitro* comparison with other antibiotics	71
Ceftizoxime, *in vitro* comparison with other antibiotics	71
Ceftriaxone, *in vitro* comparison with 9 other antibiotics	480
Cimetidine, in duodenal ulcer, dosage comparison	511
–, psychomotor effects, compared with ranitidine and promethazine	301
Ciramadol, in renal colic	93
Clemastine fumarate, in chronic urticaria, compared with brompheniramine maleate	394
Clenbuterol, in bronchial asthma, effect on peripheral airways	616
Clobetasol propionate, effect on skin, comparison of methods of measuring skin thickness	113
Clomipramine, in phobias, compared with diazepam	64
Clotrimazole, in vaginal candidosis, single dose versus 3-day therapy	520
Co-dergocrine mesylate, in vascular type dementia, effect on cerebral blood flow, compared with pentoxifylline	475
Co-trimoxazole, in respiratory tract infection, compared with pivmecillinam/pivampicillin combination	659

	Page
Dantrolene sodium, in stroke patients, long-term treatment	161
Dextropropoxyphene/paracetamol combination, in musculoskeletal pain, compared with meptazinol	240
Diazepam, in phobias, compared with clomipramine	64
Diclofenac sodium, faecal blood loss, compared with pirazolac	548
Diflorasone diacetate, in eczematous dermatitis, compared with betamethasone valerate	259
Diflunisal, in lumbago, compared with meptazinol	246
–, in osteoarthritis, compared with indomethacin	275
–, in rheumatoid arthritis, dosage comparison	568
Dimetophrine, in chronic hypotension	78
–, in hypotension, compared with midodrine	265
–, in post-partum hypotension	578
Domperidone, in cis-platinum-induced emesis, compared with alizapride	400
Econazole, in vaginal candidosis during pregnancy	371
Enalapril maleate, in severe hypertension, effect on left ventricular indices compared with hydrochlorothiazide/propranolol combination	170
Erythromycin, in acute tonsillo-pharyngitis, compared with spiramycin	192, 296
–, penetration into tonsillar tissue	611
Fenofibrate, in primary hyperlipoproteinaemia, compared with bezafibrate	650
Fentiazac, in tendinitis and bursitis, comparison of standard and slow-release tablets	442
Flunisolide, in seasonal allergic rhinitis, compared with beclomethasone dipropionate	290
Flunitrazepam, EEG effects, compared with lormetazepam	552
Flupirtine maleate, in migraine, compared with paracetamol	204
–, in post-operative pain, compared with pentazocine	594
Flurbiprofen, in acute soft tissue rheumatism, compared with piroxicam	304
Fluvoxamine, in depression, dosage comparison	681
Frusemide, pharmacokinetics when given alone or in combined tablet with amiloride	141
–, effect on catecholamine metabolism, compared with piretanide	461
–,effect on urinary electrolyte excretion, alone and combined with amiloride	124
Frusemide/amiloride combination, in heart failure	132
Fusidic acid, in orthopaedic infections	587
Glaucine, in acute and chronic cough, compared with codeine	21
Gliclazide, in Type II diabetes, lack of weight gain	7
–, –, effect of middle-term treatment	56
House dust mite extract, immunotherapy in allergic patients	235
Hydrochlorothiazide, combined with amiloride or triamterene, in hypertension	287
Hydrochlorothiazide, in elderly hypertensives, alone and combined with amiloride, compared with atenolol	691
Hydrochlorothiazide/acebutolol combination, in hypertension	323
Hydrochlorothiazide/amiloride/timolol combination, in hypertension	229
Hydrochlorothiazide/propranolol combination, in severe hypertension, effect on left ventricular indices, compared with enalapril maleate	170
Ibuprofen, in osteoarthritis, compared with naproxen	41
–, in rheumatoid arthritis, compared with naproxen	359
–, in sports injuries, compared with sulindac	119
Indapamide, in hypertension	494
–, –, compared with pindolol	10

	Page
Indomethacin, in osteoarthritis, compared with diflunisal	275
–, –, compared with naproxen	500
Influenza vaccine, split virus type, in children	713
Isosorbide mononitrate, in coronary heart disease	96, 107
Ketoprofen, in biliary colic, compared with lysine acetylsalicylate	454
–, in osteoarthritis, comparison of conventional with controlled-release formulation	28, 708
–, suppositories, in post-operative pain	436
Latamoxef, *in vitro* comparison with other antibiotics	71
Lorazepam, in anxiety, compared with bromazepam	505
Lormetazepam, EEG effects, compared with flunitrazepam	552
Lysine acetylsalicylate, in biliary colic, compared with ketoprofen	454
Mecillinam, in prophylaxis against travellers' diarrhoea	384
–, serum concentration and prostate penetration	213
Meptazinol, in lumbago, compared with diflunisal	246
–, in musculoskeletal pain, compared with dextropropoxyphene/paracetamol combination	240
–, in rheumatoid arthritis and osteoarthritis	184
Metformin, acute effects in non-diabetic subjects	47
Metoclopramide/aspirin combination, pharmacokinetics	153
Metoprolol, in hypertension, compared with atenolol	431
Mianserin, in depression, compared with trazodone	253
Midodrine, in hypotension, compared with dimetophrine	265
'Migraleve', bioavailability of paracetamol and codeine from oral formulations	626
–, bioavailability of paracetamol from rectal suppository	634
Naproxen, in osteoarthritis, use of high dose	366
–, –, compared with ibuprofen	41
–, –, compared with indomethacin	500
–, in rheumatoid arthritis, compared with ibuprofen	359
Netilmicin, *in vitro* comparison with other antibiotics	71
Penbutolol, in hypertension	417
Pentazocine, in post-operative pain, compared with flupirtine maleate	594
Pentoxifylline, in arteriosclerosis obliterans	407
–, effect on cochlear blood flow	52
–, in intermittent claudication	35
–, in severe peripheral occlusive vascular disease	602
–, in vascular type dementia, effect on cerebral blood flow compared with co-dergocrine mesylate	475
Pindolol, in hypertension, compared with indapamide	10
Piperacillin, *in vitro* comparison with other antibiotics	71
Pipothiazine palmitate, in schizophrenia, long-term treatment	449
Pirazolac, faecal blood loss, comparison with diclofenac sodium	548
–, in rheumatoid arthritis, dosage comparison	542
Piretanide, effect on catecholamine metabolism, compared with frusemide	461
Piroxicam, in acute soft tissue rheumatism, compared with flurbiprofen	304
–, faecal blood loss, compared with tenoxicam	524
–, in osteoarthritis, compared with tenoxicam	529
Pirprofen, in acute ocular inflammation	697
